INDEX TO VOLUME LIX, 1955

POWER ENGINEERING

ARTICLE INDEX

A star * denotes an illustrated article; H denotes an article which appeared in the Power Engineering Handbook. A Subject Index follows the Article Index, and an Index to Authors appears last

A

A Power Plant Primer — Part III... Feb H *103
Accidents — New Electronic Device Designed to Reduce Crane..... July *71
Accidents With Lifting Inspection Program — Armco Avoids..... Nov *80
Additives Ease Residual Fuel-Oil Burning? — Does Mixing..... June *94
Afford to Multiply Frequency for Fluorescents — Now You Can.... Mar *67
Air-Conditioning Cost Too Much — Why the..... Jan *80
Air-Conditioning a Feature of Prudential's New Chicago Building — Complete..... Apr *87
Air Conditioning — On The Boards ... Gas Powered..... July *65
Air Cylinders — You Can Get Positive Multiposition Control with... May *85
Air for P & W Expansion — Rotaries Supply Compressed..... Mar *74
Air Line Condensation and Freezing Without Tracers — Dryers Stop... Dec *68
Air Problem — $140 Preheater Eases Combustion..... Apr *96
Akron Plant — Goodyear Modernizes Electrical Power Distribution at... June *98
Algoma's New Autcmatic Boilers Turn Themselves On or Off..... Oct *91
Analyzer Will Find Hidden Faults in Minutes — New "TV" Engine.... July *68
An Emergency Motor Starter — That Works..... June *97
Another Misguided Missile . . . This One Hurt!..... Feb *102
Anticipate and Schedule Upkeep of Distribution Apparatus..... Mar H 79
APC to Hold 17th Annual Meet..... Mar 75
Application Problems Important in Feedwater Heaters..... Apr 110
Are Cyclone Furnaces Suitable for Small Boilers?..... May *82
Armco Avoids Accidents With Lifting Inspection Program..... Nov *80
Armored Cable — How It Helps Cut Costs..... May *96
Armored Cable System Costs Less, Looks Better — This New..... Apr *80
ASME and Power Show — Power Engineers Discuss Bright Future at Feb *92
ASME's Chicago Meeting Climaxes Diamond Jubilee..... Nov *90
ASME Makes Movie..... Nov *112
Ash Fusion Characteristics — How Sulfur Content of Coal Relates to.. May *98
Ashore — Marine Power Plants Do Well..... Dec *70
Astoria Gets Fuel Through Mile-Long Line..... Apr *72
Atomic Blast — Electrical Equipment Survives..... July *62
Atomic Power Development in 1954 — Highlights of..... Jan *58
Atomic Power Plant for Chicago — Boiling Water..... June *91
Atomic Power Produced by G-E — First Commercial..... Aug *67
Atomic Test — With the Editor At The Yucca Flat..... June *68
Automatic Boilers Turn Themselves On or Off — Algoma's New..... Oct *91
Automatic Demineralizing — Now It's..... Nov *88
Automatic Steam Generator — BCR Plans Second..... Dec *94
Automation Look — a Versatile Programmatic Control Without Wires — That..... Apr *97

B

Banton's Performance Calculator Helps You Cut Steam Costs..... June *74
Base — H-T Water Heats Limestone Jan *82
Battery Cuts Control Costs — Lead Calcium..... Aug *90
BCR Plans Second Automatic Steam Generator..... Dec *94
Bender Saves Pipe, Fittings, Labor — One-Stroke..... Apr *98
BF Pump Fit in Large Stations? — Will the Reciprocating..... Nov *94
B-F Pump Warmed Up, Ready to Run? — Is Your Standby..... June *92
Blankets — Selection and Care of Sewage Sludge Filter..... Dec *73
Blast — Electrical Equipment Survives Atomic..... July *62
Blowdown and Treatment to Reduce Makeup and Silica — Evaporators Use..... July *58
Blowdown System You Should Use — How to Pick the..... Oct *61
Blow-off Tank Correctly — How to Size Your..... Aug *96
Blow-off Valves — Good Maintenance Adds Years of Service to... July *60
Boiler Can Enjoy Water — Your.... Oct *90
Boiler — Control for An Industrial Monotube..... July *83
Boiler Enclosure Uses Insulation Only — This Outdoor..... June *95
Boiler Heat Balance — Graphical
2. Loss Due to Unburned Carbon in Refuse..... Feb *99
3. Loss Due to Moisture in Fuel.. Apr *74
4. Loss Due to Hydrogen in Fuel. Aug *80
5. Loss Due to Dry Flue Gases... Sept *88
Boiler Settings Must Stand the Gaff — Modern Insulated..... Feb *83
Boiler Water Supply Primer..... Aug H *104
Boilers at the Naval Supply Depot — Two H-T Water Boilers Replace 9 Steam..... Dec *96
Boilers Can Be Quick-Started — Industrial 150,000-lb-per-hr..... Apr *94
Boilers Dismantled in Tight Spot With Two-Drum Hoist, No Crane — Old..... Dec *79
Boilers Turn Themselves On or Off — Algoma's New Automatic..... Oct *91
Boiling Water Atomic Power Plant for Chicago..... June *91
Boiling Water Reactor Shows It Simple, Safe, Promising — Geneva Report on..... Sept *90
Boom Period — Station Operation During a..... Mar 73
Bootstrap for Port Alice — Water by Apr *92
Breakers — Erection, Maintenance — Easy on New 330 kv..... Oct *78
Breaker for Industry: Oil or Oilless? — Which Circuit..... Feb *80
Breaker Uses Current-Limiting Fuses — New..... Sept *79
"Brittle Fracture" Cause Toronto Turbine Explosions? — Did..... Mar 51
Build Up Waterwall Insulation With Mineral Wool Block, Asbestos Rope Sept H *100
Buying Coal — How We Use Punch Card Records in..... Apr *76
B & W Shows Research Center..... July *86

C

Cable — How It Cuts Costs — Armored..... May *96
Cable Pull — New Device Measures and Records..... Nov *77
Cable Racks Cut Wiring Costs..... June 105
Cable System Costs Less, Looks Better — This New Armored..... Apr *89
Cable — You Can Use a Mineral-Insulated Heating..... Mar *66
Cables — Preventing and Locating Accidental Grounds in..... Sept H *96
Calculator Helps You Cut Costs — Banton's Performance..... June *74
Capacity — New Diesel Generators to Raise Plant..... Dec 67
Caracas, Venezuela, Gets New Power Plant..... Apr *101
Card Records in Buying Coal — How We Use Punch..... Apr *76
Carry-Over — How We Stopped All. Feb *94
Cast Resin for Insulation, Container and Bushings — European Transformer Uses..... Dec 72
Caster-Trolleys Move Equipment... Aug H *102
C. E. I. Co. Power Men Work Smarter, Not Harder..... Mar *56
Cement Cures Casing Erosion on ID Fan — Insulating..... Mar *69
Cement Method Speeds Turbine Installation — Hydraulic..... June *86
Centrifugal Chillers that Need No Cover — Outdoor..... Dec *72
Centrifugal Pumps — Use of Limited End-Float Couplings With..... Oct *71
Chalmette Coördinates Power Facilities and Operations — How..... July *72
Chalmette Plant Solves Its Engine Problems — Kaiser's Big..... Mar *60
Chalmette Steam-Electric Plant Flexes Its Muscles..... June *78
Chart — Short-Circuit Current..... Dec *95
Chemicals — Venturi Scrubber Saves Paper Mill's Waste Heat and..... Aug *70
Chicago — Boiling Water Atomic Power Plant for..... June *91
Chicago Meeting Climaxes Diamond Jubilee — ASME's..... Nov *90
Chicago Power Show Will Feature New Designs..... Sept *94
Chillers that Need No Cover — Outdoor Centrifugal..... Dec *72
Choose Motor Enclosure to Fit the Weather..... Jan *74
Choosing, Installing, Maintaining, Valves..... Sept *58
Chromium — Now You Can Renew Worn Cylinders With..... Dec *64
Circuit Breaker for Industry: Oil or Oilless? — Which..... Feb *80
Circuit Breaker Is Easier to Maintain: Oil-filled or Oilless? — Which..... Mar *52
Circuits — Old and New — Electric. Jan *68
Clean That Concrete!..... June 100
CL & P Reports Experience With Hydrazine in Reheat Cycle..... Sept *80
CO_2, Excess Air and Efficiency — Know How to Relate Flue Gas... July H *88
CO_2 in Hydrogen Purging — Electric Heat for..... Jan *72
Coal-Burning Gas Turbine Progress. June *67
Coal Does A Stoker Stoke? — How Much..... July H *90
Coal Ducts Stop Trouble in Maintenance and Operation — Stainless Steel..... May *95
Coal Dust at Joppa — How They Control..... Oct *74
Coal Flows Like Water..... Nov *82
Coal from New Sources — How Dayton P & L Makes Sure It Gets the Right..... Aug *76
Coal — How We Use Punch Card Records in Buying..... Apr *76
Coal in Conical Bulkheads — Don't Guess! *Figure* the..... July H *90
Coal Performance Records Can Help Your Coal Supplier Help You — Your..... June 102
Coal Relates to Ash Fusion Characteristics — How Sulfur Content of... May *98
Coal Reserves? — Which Will Last Longer — Your Plant or Your Usable..... Dec *88
Coatings Do Their Job — Make Sure Your Underground..... Jan *86
Coatings Promise Long Life and Economy for Steel Stacks — Tough Glass..... Aug *62
Color Code — Make It Safe With Standard..... July 56
Color Coding — Plastic Tape for.... July 75
Color — Save Money With..... Sept 92
Combustion Air Problem — $140 Preheater Eases..... Apr *96
Commonwealth's Ridgeland No. 4 Turbine Explodes..... Jan *78
Compact Manometer Shows 0.002-PSI Changes..... Nov *67
Companies Combine Efforts in New Station..... Nov 112
Compare Your Outdoor Piping With This Job..... Aug *98
Complete Air-Conditioning a Feature of Prudential's New Chicago Bldg.. Apr *87

Compressed Air for P & W Expansion — Rotaries Supply ... Mar *74
Concrete! — Clean That ... June 100
Concrete Is Strong, Acid-Resistant, Easily Mixed and Poured — Double-Density ... Oct 93
Condensation and Freezing Without Tracers — Dryers Stop Air Line ... Dec *68
Condenser Air — Rotary Vacuum Pumps Remove ... Aug *64
Condenser and Heater Tubing Properly — Store and Handle Your ... Mar *64
Condensers Pass This Aptitude Test Today? * Could Your Main ... May *92
Condensate Pump Control Is Best? — Which ... Mar *54
Connie's Cold War — Coy ... Oct *70
Consolidated Edison to Build Nuclear Power Plant ... May *91
Construction Costs — Three-D Drawings Save Time, Mistakes and ... Aug *89
Control Costs — Lead Calcium Battery Cuts ... Aug *90
Control for An Industrial Monotube Boiler ... July *83
Control Is Best? — Which Condensate Pump ... Mar *54
Control with Air Cylinders — You Can Get Positive Multiposition ... May *85
Control Without Wires — That Automation Look — a Versatile Programmatic ... Apr *97
Cooling Tower Performance Standards — CTI Research Yields ... Sept *73
Coordinates Power Facilities and Operations — How Chalmette ... July *72
Corrosion in Heating System — This Inhibitor Cuts ... Oct *77
Corrosion Problem — Pipeline Moves Above Ground to Solve ... May H *106
Cost? — How Much Do High Stacks ... June *88
Costs — Armored Cable — How It Helps Cut ... May *96
Costs — Cable Racks Cut Wiring ... June 105
Costs — Banton's Performance Calculator Helps You Cut Steam ... June *74
Costs by 60% — Pneumatic Wood Handling Cuts Fuel ... Oct *86
Cost Estimating Must Be Done Right ... Nov *69
Costs — Lead Calcium Battery Cuts Control ... Aug *90
Costs Less, Looks Better — This New Armored Cable System ... Apr *89
Costs Less: Planned Overhaul or Emergency Shutdown? — Which ... Feb *101
Costs — Three-D Drawings Save Time, Mistakes and Construction ... Aug *89
Cost — What Some Modern Diesels ... May *64
Cost — What Two Small Industrial Steam Plants ... June *70
Could Your Main Condensers Pass This Aptitude Test Today? ... May *92
Couplings With Centrifugal Pumps — Use of Limited End-Float ... Oct *71
Coy Connie's Cold War ... Oct *70
Crane Accidents — New Electronic Device Designed to Reduce ... July *71
Crane — Old Boilers Dismantled in Tight Spot With Two-Drum Hoist, No ... Dec *79
Creep of Delray's 900-F Pipe Checks Predictions ... June 101
CTI Research Yields Cooling Tower Performance Standards ... Sept *73
Current Chart — Short-Circuit ... Dec *95
Current-Limiting Fuses — New Breaker Uses ... Sept *79
Cutting Oil Gage and Saw Table Adjuster — Try This Home-made ... July H *94
Cyclone Furnaces Suitable for Small Boilers? — Are ... May *82
Cylinders With Chromium — Now You Can Renew Worn ... Dec *64

D

Dams — Forty-Six Nations Pool Information on Building and Operating Large ... Nov. 68
Data Sheets — Why Make Your Suppliers Guess? Use Engineering ... Nov *92
Dayton P & L Makes Sure It Gets the Right Coal from New Sources — How ... Aug *76
D-C Generation — Three-Wire ... Apr H *102
Denerating Heater — Now the Small Plant Can Get a Small ... July *75
D E Co.'s Work Simplification Program ... Sept *76
Degasification Shows Its Versatility — Vacuum ... Aug *92
Delray's 900-F Pipe Checks Predictions — Creep of ... June 101
Demineralizing — Now It's Automatic ... Nov *88
Deposits — How to Identify Steam-Water Cycle ... Feb *76
Design Can Do for the Power Field — What Industrial ... Feb *88
Details Paces Upward Trends — Progress in Power Plant ... Jan *62
Detroit Edison-Ontario Hydro Interconnection ... Oct *82
Development in 1954 — Highlights of Atomic Power ... Jan *58
Diamond Jubilee — Chicago Meeting Climaxes ASME's ... Nov *90
Did "Brittle Fracture" Cause Toronto Turbine Explosions? ... Mar 51
Diesels Cost — What Some Modern ... May *64
Diesels, Gas Turbines Share Upward Trends — Hydro ... Jan *66
Diesel Generators to Raise Plant Capacity — New ... Dec 67
Diesel Plant Serves Ramey Air Force Base — Foolproof ... Feb *96
Diesel Power on Display ... Aug *75
Disaster Power or Load Relief — Mobile Gas Turbine Puts 5.5 MW on Rails for ... Aug *61
Dismantled in Tight Spot With Two-Drum Hoist, No Crane — Old Boilers ... Dec *79
Distribution Apparatus — Anticipate and Schedule Upkeep of ... Mar H 79
Distribution at Akron Plant — Goodyear Modernizes Electrical Power ... June *98
Distribution for Domestic Loads ... June 116
Does Mixing Additives Ease Residual Fuel — Oil Burning? ... June *94
Domestic Loads — Distribution for ... June 116
Don't Guess! *Figure* The Coal in Conical Bulkheads ... July H *90
Double-Density Concrete Is Strong, Acid-Resistant, Easily Mixed and Poured ... Oct 93
Drawings Save Time, Mistakes and Construction Costs — Three-D ... Aug *89
Drill Press — Tips on Holding Work in the ... Apr *100
Dry Cell Made Entirely By Machine — New ... Dec *67
Dry Fluid Drive — Flexidyne — New ... Apr *79
Dryers Stop Air Line Condensation and Freezing Without Tracers ... Dec *68
Duquesne — Westinghouse to Build Reactors for ... Dec 94
Dust at Joppa — How They Control Coal ... Oct *74

E

Electric Circuits — Old and New ... Jan *68
Electric Heat for CO_2 in Hydrogen Purging ... Jan *72
Electrical Engineers Invade New England — Fuel, Mechanical ... Aug *82
Electrical Equipment Survives Atomic Blast ... July *62
Electrical Insulation — Irradiated Polyethylene Used for Hot-Spot ... June *85
Electrical Power Distribution at Akron Plant — Goodyear Modernizes June *98
Electrical Spares Should We Carry? — What ... Feb *75
Electronic Connections — Soldering ... June H *108
Electronic Device Designed to Reduce Crane Accidents — New ... July *71
Electrostatic Precipitators — This New Rapper Improves ... Jan *84
Emergency Motor Starter — That Works — An ... June *97
Emergency Shutdown? — Which Costs Less: Planned Overhaul or ... Feb *101
Enclosure to Fit the Weather — Choose Motor ... Jan *74
End-Float Couplings With Centrifugal Pumps — Use of Limited ... Oct *71
Engine Analyser Will Find Hidden Faults in Minutes — New "TV" ... July *68
Engine Gets Second Wind — Two-Stroke Gas ... Jan *71
Engine Omits Fan, Pump, and Radiator — Water-Cooled ... Sept *93
Engine Problems — Kaiser's Big Chalmette Plant Solves Its ... Mar *60
Engineers Are Doing Six to Thirty Years After Graduation — What ... Aug *100
Engineer Shortage — JETS Does Something About the ... Oct *83
Environment — Kaw Station Adapts to Its ... Dec *101
Erection, Maintenance Easy on New 330 kv Breakers ... Oct *78
Erosion on ID Fan — Insulating Cement Cures Casing ... Mar *69
Estimating Must Be Done Right — Cost ... Nov *69
European Transformer Uses Cast Resin for Insulation, Container and Bushings ... Dec 72
Evaporators Use Blowdown and Treatment to Reduce Makeup and Silica ... July *58
Excess Air and Efficiency — Know How to Relate Flue Gas CO_2 ... July H *88
Exhaust Noise — How to Reduce ... Dec *82
Explodes — Commonwealth's Ridgeland No. 4 Turbine ... Jan *78
Explosions? — Did "Brittle Fracture" Cause Toronto Turbine ... Mar 51

F

Failure — Report on Ridgeland Turbine ... Dec *92
Fan — Insulating Cement Cures Casing Erosion on ID ... Mar *69
Fan, Pump, and Radiator — Water-cooled Engine Omits ... Sept *93
Faults In Minutes — New "TV" Engine Analyzer Will Find Hidden ... July *68
Feedwater Heaters — Application Problems Important in ... Apr 110
Feed Water Treatment — High Pressure ... June 101
Figure Pipe Sizes the Simple Way ... Oct *88
Figure Power Engineering Problems with Slide Rule Shortcuts ... July *80
Filter Blankets — Selection and Care of Sewage Sludge ... Dec *73
Fire — Neglected Trouble Warnings Cause $25,000 Ice Plant ... Nov *98
Fire Protection Does A Power Plant Need? — How Much ... July *78
First Commercial Atomic Power Produced by G-E ... Aug *67
Flexidyne — New Dry Fluid Drive ... Apr *79
Flood Damage — River on the Rampage — Union Electric's Precautions to Prevent ... Oct 82
Floodwaters — Huge Pumps Control Florida ... June *106
Flows Like Water — Coal ... Nov *82
Flue Gas CO_2, Excess Air and Efficiency — Know How to Relate ... July H *88
Fluid Drive — Flexidyne — New Dry ... Apr *79
Fluorescents — Now You Can Afford to Multiply Frequency for ... Mar *67
Fly Ash — Gravity Re-injection Reduces Spreader Stoker ... Aug *79
Foaming Plastic Insulation — Performance Data for Sprayed-on ... Oct *92
Foams to Thick Coat — Paint-on Insulation ... Mar *59
Foolproof Diesel Plant Serves Ramey Air Force Base ... Feb *96
Formulae — Much-Used Wire Data and ... Apr H 108
Forty-Six Nations Pool Information on Building and Operating Large Dams ... Nov 68
Freezing Without Tracers — Dryers Stop Air Line Condensation and ... Dec *68
Frequency for Fluorescents — Now You Can Afford to Multiply ... Mar *67
Fuel Costs by 60% — Pneumatic Wood Handling Cuts ... Oct *86
Fuel, Mechanical, Electrical Engineers Invade New England ... Aug *82
Fuels — New Vepco Station to Burn Three ... Oct 93
Fuel-Oil Burning? — Does Mixing Additives Ease Residual ... June *94
Fuel Oil Is an Art — Handling Heavy ... Apr *82
Fuel Reserves Won't Last Forever — Our ... Jan *56
Fuels This Modernized Plant — Wood Waste ... Dec *69
Fuel Through Mile-Long Line — Astoria Gets ... Apr *72
Furnaces Suitable for Small Boilers? — Are Cyclone ... May *82
Fuses — New Breaker Uses Current-Limiting ... Sept *79

G

Gage Holders — Try Magnetic Dial ... July H *92
Gas Engine Gets Second Wind — Two-Stroke ... Jan *71
Gas-Fired Unit Heaters or Steam — Which Is Better? ... Sept *57
Gas-Insulated Transformers Are On the Boards ... Feb 82
Gas-Powered Air Conditioning — On The Boards ... July *65
Gas Shielding Replaces Pipe Weld Backing Strips — Internal ... May H *108
Gas Turbine Primer — The
Part I ... Oct H *96
Part II ... Nov H *102
Part III ... Dec H *104
Gas Turbine Progress — Coal-Burning ... June *67
Gas Turbine Puts 5.5 MW on Rails for Disaster Power or Load Relief ... Aug *61
Gas Turbines Share Upward Trends Hydro, Diesels ... Jan *66
Generation — Three-Wire D-C ... Apr H *102
Generator! — So — You're Going to Overhaul Your Turbine
I. Preview of Series ... Apr *67

II. Planning, Preparation, Preliminary Work — May *61
III. Removing Turbine Cover and Spindle — June *71
IV. Turning Turbine Cover — July *53
V. Reblading — Aug *85
VI. Metallizing Shaft — Sept *65
VII. Machining Spindle — Oct *65
VIII. Checking Clearances — Nov *83
IX. Work on Generator — Dec *85
Geneva Report on Boiling Water Reactor Shows It Simple, Safe, Promising — Sept *90
Glass Bubbles Make Tough, Versatile, Insulating Wall — Apr *88
Glass Coatings Promise Long Life and Economy for Steel Stacks — Tough — Aug *62
Good Maintenance Adds Years of Service to Blow-off Valves — July *60
Good Old Reciprocating Steam Pump . . . Still Young at Heart — Sept *60
Goodyear Modernizes Electrical Power Distribution at Akron Plant — June *98
Graduation — What Engineers Are Doing Six to Thirty Years After — Aug *100
Graphical Boiler Heat Balance
2. Loss Due to Unburned Carbon in Refuse — Feb *99
3. Loss Due to Moisture in Fuel — Apr *74
4. Loss Due to Hydrogen in Fuel — Aug *80
5. Loss Due to Dry Flue Gases — Sept *88
Gravity Re-injection Reduces Spreader Stoker Fly Ash — Aug *79
Great Northern's New 1250-psi Power Plant Serves Expanded Paper Mill — Sept *62
Grounds In Power Cables — Preventing and Locating Accidental — Sept H *96
Grout Power Equipment — How to — July *76

H

Handle Your Condenser and Heater Tubing Properly — Store and — March *64
Handling Heavy Fuel Oil Is an Art — Apr *82
Heat and Chemicals — Venturi Scrubber Saves Paper Mill's Waste — Aug *70
Heat Balance — Graphical Boiler
2. Loss Due to Unburned Carbon in Refuse — Feb *99
3. Loss Due to Moisture in Fuel — Apr *74
4. Loss Due to Hydrogen in Fuel — Aug *80
5. Loss Due to Dry Flue Gases — Sept *88
Heat for CO_2 in Hydrogen Purging — Heat — Jan *72
Heater Tubing Properly — Store and Handle Your Condenser and — Mar *64
Heaters — Application Problems Important in Feedwater — Apr 110
Heaters or Steam — Which Is Better? — Gas-Fired Unit — Sept *57
Heating Cable — You Can Use a Mineral-Insulated — Mar *68
Heating System — This Inhibitor Cuts Corrosion in — Oct *77
Heavy Fuel Oil Is an Art — Handling — Apr *82
Here's How You Can Be a Good Power Supervisor — Mar 72
Here's Proof of 480-v Distribution Savings — Nov *65
Highlights of Atomic Power Development in 1954 — Jan *58
High Pressure Feed Water Treatment — June 101
High Stacks Cost? — How Much Do — June *88
Hoist, No Crane — Old Boilers Dismantled in Tight Spot With Two-Drum — Dec *79
Hose Damage . . . Save Money — Repair — Oct *69
Hot Line Tools — New Booklet Shows Proper Use of — Oct *90
Hot Water Systems — How to Size Piping for — Nov *100
How a New Mexico Power Plant Handles Well Water — Apr *99
How Chalmette Coördinates Power Facilities and Operations — July *72
How Dayton P & L Makes Sure It Gets the Right Coal from New Sources — Aug *76
How Kaiser Rectifies Power for Potlines — May *66
How Much Coal Does A Stoker Stoke? — July H *90
How Much Do High Stacks Cost? — June *88
How Much Fire Protection Does A Power Plant Need? — July *78
How Power Engineers Learn Work Simplification — May *88
How Sulfur Content of Coal Relates to Ash Fusion Characteristics — May *98
How They Control Coal Dust at Joppa — Oct *74
How to Grout Power Equipment — July *76
How to Identify Steam-Water Cycle Deposits — Feb *76
How To Pick the Blowdown System You Should Use — Oct *65
How to Outlast Your Ladder — Mar H *81
How to Reduce Exhaust Noise — Dec *82
How to Size Piping for Hot Water Systems — Nov *100
How to Size Your Blow-off Tank Correctly — Aug *96
How We Stopped All Carry-Over — Feb *94
How We Use Punch Card Records in Buying Coal — Apr *76
Holding Work in the Drill Press — Tips On — Apr *100
H-T Water Heats Limestone Base — Jan *82
Huge Pumps Control Florida Floodwaters — June *106
Humphrey Internal Combustion Pump? — What Happened to the — Sept *85
Hydraulic Cement Method Speeds Turbine Installation — June *86
Hydrazine in Reheat Cycle — CL & P Reports Experience With — Sept *80
Hydrazine Users Answer Questions on New Oxygen Scavenger — Two — Nov *96
Hydro, Diesels, Gas Turbines Share Upward Trends — Jan *66
Hydrogen Purging — Electric Heat for CO_2 in — Jan *72

I

Ice Plant Fire — Neglected Trouble Warnings Cause $25,000 — Nov *98
Identify Steam-Water Cycle Deposits — How to — Feb *76
Industrial Monotube Boiler — Control for An — July *83
Industrial 150,000-lb-per-hr Boilers Can Be Quick-Started — Apr *94
Industrial Design Can Do for the Power Field — What — Feb *88
Industrial Steam Plants Costs — What Two Small — June *70
Ingredients for Self-sufficiency — Sludge Gas and Propane — Mar *63
Inhibitor Cuts Corrosion in Heating System — This — Oct *77
Inspection Program — Armco Avoids Accidents With Lifting — Nov *80
Installation — Hydraulic Cement Method Speeds Turbine — June *86
Interconnection — Detroit Edison-Ontario Hydro — Oct *82
Internal Combustion Pump? — What Happened to the Humphrey — Sept *85
Internal Gas Shielding Replaces Pipe Weld Backing Strips — May H *108
Instruments Give Vital Operating Data — Turbine Supervisory — Jan *76
Insulated Boiler Settings Must Stand the Gaff — Modern — Feb *83
Insulating Cement Cures Casing Erosion on ID Fan — Mar *69
Insulating Wall — Glass Bubbles Make Tough, Versatile — Apr *88
Insulation Foams to Thick Coat — Paint-on — Mar *59
Insulation — Irradiated Polyethylene Used for Hot-Spot Electrical — June *85
Insulation Only — This Outdoor Boiler Enclosure Uses — June *95
Insulation — Performance Data for Sprayed-on Foaming Plastic — Oct *92
Insulation With Mineral Wool Block, Asbestos Rope — Build Up Waterwall — Sept H *100
Irradiated Polyethylene Used for Hot-Spot Electrical Insulation — June *85
Is Your Standby B-F Pump Warmed Up, Ready to Run? — June *92

J

JETS Does Something About the Engineer Shortage — Oct *83
Joppa — How They Control Coal Dust at — Oct *74

K

Kaiser Rectifies Power for Potlines — How — May *66
Kaiser's Big Chalmette Plant Solves Its Engine Problems — Mar *60
Kaw Station Adapts to Its Environment — Dec *101
Know How to Relate Flue Gas CO_2, Excess Air and Efficiency — July H *88

L

Ladder — How To Outlast Your — Mar H *81
Lead Calcium Battery Cuts Control Costs — Aug *90
Leaning Panel — The — Sept *95
Level on the Spot — Water — Oct *105
Lifting Inspection Program — Armco Avoids Accidents With — Nov *80
Limestone Base — H-T Water Heats — Jan *82
Limited End-Float Couplings With Centrifugal Pumps — Use of — Oct *71
Line — Astoria Gets Fuel Through Mile-Long — Apr *72
Loads — Distribution for Domestic — June 116
Load Relief — Mobile Gas Turbine Puts 5.5 MW on Rails for Disaster Power or — Aug *61
Locating Accidental Grounds in Power Cables — Preventing and — Sept H *96
Low Temperature Tar — New Material — Dec 67

M

Machine — New Dry Cell Made Entirely By — Dec *67
Magnesium from Sea — New Unit Produces — Nov 66
Magnetic Dial Gage Holders — Try — July H *92
Magnets Do the Job in Pipeline Trap — Permanent — July *82
Maintain: Oil-filled or Oilless? — Which Circuit Breaker Is Easier to — Mar *52
Maintenance Adds Years of Service to Blow-off Valves — Good — July *60
Maintenance and Operation — Stainless Steel Coal Ducts Stop Trouble in — May *95
Maintenance Easy on New 330 kv Breakers — Erection — Oct *78
Make It Safe With Standard Color Code — July 56
Make Pipe Turns the Easy Way With This Home-Made Template — May H *104
Make Sure Your Underground Metal Coatings Do Their Job — Jan *86
Manometer Shows 0.002-PSI Changes — Compact — Nov *67
Marine Power Plants Do Well Ashore — Dec *70
Mechanical, Electrical Engineers Invade New England — Fuel, — Aug *82
Metal Coatings Do Their Job — Make Sure Your Underground — Jan *86
Mineral-Insulated Heating Cable — You Can Use — Mar *66
Missile . . . This One Hurt! — Another Misguided — Feb *102
Mobile Gas Turbine Puts 5.5 MW on Rails for Disaster Power or Load Relief — Aug *61
Mobile Power Units Power POWERAMA — Oct *94
Modern Insulated Boiler Settings Must Stand the Gaff — Feb *83
Modernizes Electrical Power Distribution at Akron Plant — Goodyear — June *98
Modernized Plant — Wood Waste Fuels This — Dec *69
Money With Color — Save — Sept 92
Monotube Boiler — Control for An Industrial — July *83
Motor Enclosure To Fit the Weather — Choose — Jan *74
Move Equipment — Caster-Trolleys — Aug H *102
Much-Used Wire Data and Formulae — Apr H 108

N

Navy Simplifies Piping Layout and Fabrication — U. S. — June *76
Neglected Trouble Warnings Cause $25,000 Ice Plant Fire — Nov *98
New Booklet Shows Proper Use of Hot Line Tools — Oct *90
New Breaker Uses Current-Limiting Fuses — Sept *79
New Compact TV Lets You Watch Anywhere in Your Plant — Mar *78
New Device Measures and Records Cable Pull — Nov *77
New Diesel Generators to Raise Plant Capacity — Dec 67
New Dry Cell Made Entirely By Machine — Dec *67
New Electronic Device Designed to Reduce Crane Accidents — July *71
New Material: Low Temperature Tar — Dec 67
New Mexico Power Plant Handles Well Water — How a — Apr *99
New "TV" Engine Analyzer Will Find Hidden Faults in Minutes — July *68
New Unit Produces Magnesium from Sea — Nov 66
New Vepco Station to Burn Three Fuels — Oct 93
New Zeolites Separate Gas or Liquid Mixtures by Molecule Size — May *81
Noise — How to Reduce Exhaust — Dec *82
Non-Sparking Tools *Can* Make Sparks — Feb *79
Now It's Automatic Demineralizing — Nov *88
Now the Small Plant Can Get a Small Deaerating Heater — July *75

Now You Can Afford to Multiply Frequency for Fluorescents ... Mar *67
Now You Can Renew Worn Cylinders With Chromium ... Dec *64
No. 4 Turbine Explodes, Commonwealth's Ridgeland ... Jan *78
Nuclear Power Plant — Consolidated Edison To Build ... May *91

O

Old and New — Electric Circuits ... Jan *68
Old Boilers Dismantled in Tight Spot With Two-Drum Hoist, No Crane ... Dec *79
On The Boards . . . Gas-Powered Air Conditioning ... July *65

Boilers and Boiler Room Problems

Algoma's New Automatic Boilers Turn Themselves On or Off — Oct *91
A Power Plant Primer
Part II — Jan H *88
Part III — Feb H *103
Application Problems Important in Feedwater Heaters — Apr 110
Are Cyclone Furnaces Suitable for Small Boilers? — May *82
Banton's Performance Calculator Helps You Cut Steam Costs — June *74
BCR Plans Second Automatic Steam Generator — Dec *94
Combined Steam-Gas Turbine Plants — May 75
Control for An Industrial Monotube Boiler — July *83
Figure Power Engineering Problems with Slide Rule Shortcuts — July *80
Good Maintenance Adds Years of Service to Blow-off Valves — July *60
Graphical Boiler Heat Balance
2. Loss Due to Unburned Carbon in Refuse — Feb *99
3. Loss Due to Moisture in Fuel — Apr *74
4. Loss Due to Hydrogen in Fuel — Aug *80
5. Loss Due to Dry Flue Gases — Sept *88
Gravity Re-injection Reduces Spreader Stoker Fly Ash — Aug *79
How to Pick the Blowdown System You Should Use — Oct *61
How to Size Your Blow-off Tank Correctly — Aug *96
How We Stopped All Carry-Over — Feb *94
H-T Water Heats Limestone Base — Jan *82
Industrial 150,000-lb-per-hr Boilers Can Be Quick-Started — Apr *94
Know How to Relate Flue Gas CO_2, Excess Air and Efficiency — July H *88
Marine Power Plants Do Well Ashore — Dec *70
Modern Insulated Boiler Settings Must Stand the Gaff — Feb *83
Multi-Fuel Boiler Control — May 72
New Vepco Station to Burn Three Fuels — Oct 93
Old Boilers Dismantled in Tight Spot With Two-Drum Hoist, No Crane — Dec *79
Operate Your Underfeed Stokers Properly — June *82
Organic Waste Burns Wet, Produces 2200-psi Steam — Dec *63
Progress in Power Plant Details Paces Upward Trends — Jan *62
This Outdoor Boiler Enclosure Uses Insulation Only — June *95
Two H-T Water Boilers Replace 9 Steam Boilers at the Naval Supply Depot — Dec *96
Water Level on the Spot — Oct *105
We Now Need Steam Tables Up to 15,000 psia, 1500 F — June 104
Your Boiler Can Enjoy Water — Oct *90

Construction and Installation

Clean That Concrete! — June 100
Double-Density Concrete is Strong, Acid-Resistant, Easily Mixed and Poured — Oct 93
How to Grout Power Equipment — July *76
Hydraulic Cement Method Speeds Turbine Installation — June *86
Old Boilers Dismantled in Tight Spot With Two-Drum Hoist, No Crane — Dec *79
Tecoloto Discourages Men and Kills Machines — Feb *98

Corrosion Problems

Blue Blush on Metals — May 70
Make Sure Your Underground Metal Coatings Do Their Job — Jan *86
Stainless Steel Coal Ducts Stop Trouble in Maintenance and Operation — May *95
This Inhibitor Cuts Corrosion in Heating System — Oct *77
Tough Glass Coatings Promise Long Life and Economy for Steel Stacks — Aug *62
Vinyl Paint Hard to Handle? . . . Spray It Hot — Sept *70

Electrical Motors and Switchgear

An Emergency Motor Starter — That Works — June *97
Choose Motor Enclosure To Fit The Weather — Jan *74

Algoma's New Automatic Boilers Turn Themselves On or Off... Oct *91
BCR Plans Second Automatic Steam Generator... Dec *94
Centralized Control of Boiler and Feedwater Chemical Treatment... May 71
Compact Manometer Shows 0.002-PSI Changes... Nov *67
Control for An Industrial Monotube Boiler... July *83
Dryers Stop Air Line Condensation and Freezing Without Tracers... Dec *68
Fault Location by Radar... May 70
Lead Calcium Battery Cuts Control Costs... Aug *90
Multi-Fuel Boiler Control... May 72
New Compact TV Lets You Watch Anywhere in Your Plant... Mar *78
New Device Measures and Records Cable Pull... Nov *77
New Electronic Device Designed to Reduce Crane Accidents... July *71
New "TV" Engine Analyzer Will Find Hidden Faults in Minutes... July *68
Now It's Automatic Demineralizing... Nov *88
Remarkable Miniature Tube Made of Ceramic, Steel... Nov *101
Soldering Electronic Connections... June H *108
That Automation Look — a Versatile Programmatic Control Without Wires... Apr *97
The Leaning Panel... Sept *95
Turbine Supervisory Instruments Give Vital Operating Data... Jan *76
Two-Way Radio Dispatches Norton's Thermos-Bottle Locomotives... May *102
Which Condensate Pump Control Is Best?... Mar *54
You Can Get Positive Multiposition Control with Air Cylinders... May *85

Insulation

Build up Waterwall Insulation With Mineral Wool Block, Asbestos Rope... Sept H *100
Glass Bubbles Make Tough, Versatile, Insulating Wall... Apr *88
Insulating Cement Cures Casing Erosion on ID Fan... Mar *69
Irradiated Polyethylene Used for Hot-Spot Electrical Insulation... June *85
Modern Insulated Boiler Settings Must Stand the Gaff... Feb *83
Paint-on Insulation Foams to Thick Coat... Mar *59
Performance Data for Sprayed-on Foaming Plastic Insulation... Oct *92
This Outdoor Boiler Enclosure Uses Insulation Only... June *95

Internal Combustion Engines

Diesel Power on Display... Aug *75
Foolproof Diesel Plant Serves Ramey Air Force Base... Feb *96
How to Reduce Exhaust Noise... Dec *82
Hydro, Diesel, Gas Turbines Share Upward Trends... Jan *66
Kaiser's Big Chalmette Plant Solves Its Engine Problems... Mar *60
Mobile Power Units Power POWER-AMA... Oct *94
New Diesel Generators to Raise Plant Capacity... Dec 67
New "TV" Engine Analyzer Will Find Hidden Faults in Minutes... July *68
Now You Can Renew Worn Cylinders With Chromium... Dec *64
Two-Stroke Gas Engine Gets Second Wind... Jan *71
Water-Cooled Engine Omits Fans, Pump, and Radiator... Sept *93
What Some Modern Diesels Cost... May *64

Management, Methods and Training

A Power Plant Primer
Part II... Jan H *88
Part III... Feb H *103
ASME Makes Movie... Nov *112
C. E. I. Co. Power Men Work Smarter, Not Harder... Mar *56
Cost Estimating Must Be Done Right Nov *69
D E Co.'s Work Simplification Program... Sept *76
Foolproof Diesel Plant Serves Ramey Air Force Base... Feb *96
Here's How You Can Be a Good Power Supervisor... Mar 72
How Power Engineers Learn Work Simplification... May *88
JETS Does Something About the Engineer Shortage... Oct *83
Power Production to Reach Trillion Kwh by 1964... Oct 77
Station Operation During a Boom Period... Mar 73
The Gas Turbine Primer
Part I... Oct H *96
Part II... Nov H *102
Part III... Dec H *104
Three-D Drawings Save Time, Mistakes and Construction Costs... Aug *89
What Engineers Are Doing Six to Thirty Years After Graduation... Aug *100
What Industrial Design Can Do for the Power Field... Feb *88
Which Costs Less: Planned Overhaul or Emergency Shutdown?... Feb *101
Which Will Last Longer—Your Plant or Your Usable Coal Reserves?... Dec *88

Meetings and Conventions

America's Only All-Power Conference Sets New Records for Value... May *69
APC to Hold 17th Annual Meet... Mar 75
ASME's Chicago Meeting Climaxes Diamond Jubilee... Nov *90
Chicago Power Show Will Feature New Designs... Sept *94
Forty-Six Nations Pool Information on Building and Operating Large Dams... Nov 68
Fuel, Mechanical, Electrical Engineers Invade New England... Aug *82
Mobile Power Units Power POWER-AMA... Oct *94
Power Engineers Discuss Bright Future at ASME and Power Show... Feb *92
Solar Energy Association Announces Program for World Symposium at Phoenix, Ariz... Sept 78

Piping and Valves

Astoria Gets Fuel Through Mile-Long Line... Apr *72
Blue Blush on Metals... May 70
Choosing, Installing, Maintaining, Valves... Sept *58
Compare Your Outdoor Piping With This Job... Aug *98
Creep of Delray's 900-F Pipe Checks Predictions... June 101
Dryers Stop Air Line Condensation and Freezing Without Tracers... Dec *68
Figure Pipe Sizes the Simple Way... Oct *88
Good Maintenance Adds Years of Service to Blow-off Valves... July *60
How to Size Piping for Hot Water Systems... Nov *100
Internal Gas Shielding Replaces Pipe Weld Backing Strips... May H *108
Make Pipe Turns the Easy Way With this Home-Made Template May H *104
One-Stroke Bender Saves Pipe, Fittings, Labor... Apr *98
Permanent Magnets Do the Job in Pipeline Trap... July *82
Pipeline Moves Above Ground to Solve Corrosion Problem May H *106
Store and Handle Your Condenser and Heater Tubing Properly... Mar *64
They Stopped the Water Hammer — Pipe Sizing Was Wrong!... Aug *72
The Why and How of Steam Trapping
1. Types of Traps... Dec *98
U. S. Navy Simplifies Piping Layout and Fabrication... June *76

Plant Descriptions

B & W Shows Research Center... July *86
Caracas, Venesuela, Gets New Power Plant... Apr *101
Chalmette Steam-Electric Plant Flexes Its Muscles... June *78
Companies Combine Efforts in New Station... Nov 112
Foolproof Diesel Plant Serves Ramey Air Force Base... Feb *96
Great Northern's New 1250-psi Power Plant Serves Expanded Paper Mill. Sept *62
How Chalmette Coördinates Power Facilities and Operations... July *72
How Kaiser Rectifies Power for Potlines... May *66
How They Control Coal Dust at Joppa... Oct *74
Kaiser's Big Chalmette Plant Solves Its Engine Problems... Mar *60
Kaw Station Adapts to Its Environment... Dec *101
New Unit Produces Magnesium from Sea... Nov 66
River on the Rampage — Union Electric's Precautions to Prevent Flood Damage... Oct 82
Station Operation During a Boom Period... Mar 73
Two H-T Water Boilers Replace 9 Steam Boilers at the Naval Supply Depot... Dec *96

Pumps

Good Old Reciprocating Steam Pump . . . Still Young at Heart... Sept *60
Huge Pumps Control Florida Floodwaters... June *106
Is Your Standby B-F Pump Warmed Up, Ready to Run?... June *92
Rotary Vacuum Pumps Remove Condenser Air... Aug *64
Use of Limited End-Float Couplings with Centrifugal Pumps... Oct *71
What Happened to the Humphrey Internal Combustion Pump?... Sept *85
Which Condensate Pump Control Is Best?... Mar *54
Will the Reciprocating BF Pump Fit in Large Stations?... Nov *94
World's Largest Pump-Turbine... Jan 77

Records and Costs

Cable Racks Cut Wiring Costs... June 105
Cost Estimating Must Be Done Right Nov *69
Here's Proof of 480-v Distribution Savings... Nov *65
How Dayton P & L Makes Sure It Gets the Right Coal from New Sources... Aug *76
How Much Do High Stacks Cost?... June *88
How We Use Punch Card Records in Buying Coal... Apr *76
